

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

PREFACE

The 1916 edition of *The* LAWYERS' LIST has been compiled with all of the scrupulous care customarily employed by its publisher in the effort to maintain the standing of this publication as regards accuracy and reliability. We are unable this year, as last, to present the lists of lawyers for Germany, France, Russia, Austria, Italy, and the other countries at war, without the accompanying notice that they are published with that degree of uncertainty which is unavoidable under the present conditions in Europe. The compilation for Great Britain is, we believe, quite reliable, while the compilations for the other warring countries are as dependable as it has been possible for us to make them. We are once again regretfully obliged to omit Belgium altogether.

The LAWYERS' LIST is a selected list of Legal Practitioners, international in scope. It is assembled with the most painstaking care; with assistance and counsel from authoritative and responsible sources. It serves as a guide in the selection of Counsel, and is published for the use of Members of the Bar, the legal departments of Corporations, and others requiring the services of legal correspondents.

In the present edition, for the year 1916, the work of revision has been accomplished as the result of extensive investigation, covering every city and town (except in the cases of some of the cities and towns in certain of the warring nations) of the several countries represented in this volume. The most careful and comprehensive inquiry has been made in respect to the character and standing of the Members of the Bar named in *The* LAWYERS' LIST, and it is believed that this work contains only the names of able, responsible lawyers who are deserving of the fullest confidence.

Eminent Members of the Bar in the principal cities and towns of the United States, for years associated with

PREFACE

The LAWYERS' LIST, have aided in the compilation for this country. They have given the publisher of *The* LAWYERS' LIST the benefit of their knowledge and experience, and their familiar acquaintance with many practitioners. This information has been supplemented with advice and opinions from the officers of banking institutions, the legal departments of prominent Corporations, and from other trustworthy sources.

The names of Counsel in Patent, Trade-Mark and Copyright Causes have been assembled with the assistance of many of the most eminent lawyers engaged in this practice.

In Canada and Great Britain the conditions with reference to Patent and Trade-Mark practice differ from those which prevail in the United States. There, Patent Solicitors, so-called, are frequently expert draftsmen and engineers, and conduct the business of procuring patents, and they are not, as a rule, members of the legal profession. While Solicitors in Canada and Great Britain do not specialize in Patent practice as do Members of the Bar in this country, certain firms of General Practitioners have had large experience in the conduct of Patent, Trade-Mark and Copyright litigation, and are fully qualified to undertake any commissions relating to causes of this character. We present as Counsel in Patent, Trade-Mark and Copyright causes, in all instances, the names of Members of the Bar.

The methods employed in compiling *The* LAWYERS' LIST for the United States have obtained, also, in the selection of the names of Practitioners in Central and South America, Africa, Asia, Australasia and Europe. The names given have been assembled with the aid of American, English and Canadian law firms which have had occasion to retain Counsel in these countries; and with the added assistance of the principal foreign banking institutions, and others.

I am indebted, as well, to the foreign representatives of
